Hey Will,	
hanks for this input. In fact there is a simple RSS feed already. Sight corner? ts link is: http://windbg.info/forum/fb_rss.html?no_html=1	See the little reddish icon in the lower
But I do agree that the icon is way to hidden so I put the following main-menu section with all available feeds". I guess this should diveek or so.	•
Γhanks again & Warm Regards, RK

I see it now. Maybe adding it to the set of icons on the top left (new thread, reply, un/subscribe, favorite) or right side (above Forum Tools) would have gotten my attention. It was hiding from me. Thanks again.
